Profile

Recent Computer Science graduate specializing in Frontend and Full Stack Web Development. Proficient in HTML, CSS, JavaScript, C and MS-SQL Server, with hands-on experience using React.js, Bootstrap, Node.js, and Express.js to build responsive and dynamic web applications. Comfortable with version control tools like Git & GitHub, and working with libraries such as Axios and Framer Motion. Eager to apply technical skills in a real-world environment, collaborate with teams, and grow as a developer.

Projects

Weather Web Application, React, OpenWeatherMap API, HTML, CSS, JavaScript, Axios 

- Developed a responsive weather application using React that displays real-time weather information. Integrated the OpenWeatherMap API to fetch and present temperature, humidity, and weather conditions. Utilized Axios for handling API requests and React Hooks for efficient state management. Styled the UI with CSS and Bootstrap, and deployed the app on Netlify.
